

The CUBE

Portable Mainline System

The CUBE

Portable Mainline System

EVERYTHING YOU NEED, BOXED UP AND READY TO GO.

The CUBE includes nearly everything our vans, high cubes, and other mobile systems offer in a portable, self-contained CCTV inspection workstation. Load it on a trailer, set it in a truck bed, or carry it on the back of an ATV. The CUBE is ideal for accessing tight spaces and easements with our complete line of durable inspection technologies.

2200-watt, 120V inverter Honda generator is quiet (48 to 57 dBA), lightweight (less than 47 lbs), and fuel efficient (up to 8.1 hrs on 0.95 gal of gas).

Ducted cabinet lets you run generator with door open or closed.

Slide-out shelf with heavy-duty ball bearings for easy-pull action and durability.

General Features

- "Plug-and-play" compatibility with any Subsite Electronics camera/transporter combination.
- Can be configured to operate a mainline system with up to 1,500 feet of cable.
- Highly water resistant from the door and panel design all the way to the sealed rivets.
- Fits on an ATV or in the bed of a pickup truck.
- Single-conductor technology for significant cost and performance advantages over multi-conductor technology through interchangeability of components, backwards and forwards compatibility, and reduced downtime.
- 45"H x 44"W x 42"D, approximately 850 pounds, depending upon the amount of cable.

Available Transporters/Cameras

Transporter: **Mighty Mini**
Cameras: **OmniStar Probe, 1306**

Transporter: **TranStar II**
Camera: **TrakStar II**

Transporter: **TranStar**
Camera: **TrakStar**

SinCon cable features a 5,400-pound breaking strength (versus 500 to 2,000 pounds for multi-conductor cable).

Four 2000-pound rated lift/tie down hooks.

Automatic level winding system for smooth, hands-free cable spooling.

Fully self-contained with on-board generator.

Protective door encloses unit and raises for easy access.

Housed in powder-coated, glare-resistant, 1/8" thick 5052-H32 aluminum.

Front and rear forklift access for easy loading.

Front access, nine-gallon pressurized wash-down system with retractable hose reel and non-corrosive poly fill and overflow vents.

Integrated six-receptacle outlet strip.

Dual 500-pound capacity storage drawers.

Worktop shelf for joystick auxiliary controller opens for access to storage drawer.

Transporter: **ProTrak**
Cameras: **TrakStar, TrakStar II**

Transporter: **Steerable Storm Drain**
Cameras: **TrakStar, TrakStar II**

The industry's ONLY CABLE WARRANTY – 1 YEAR
The industry's BEST 1-YEAR TRANSPORTER WARRANTY

More Than 30 Years of Innovation.

Our inspection system technology traces its roots back three decades with many innovative “firsts” to the marketplace.

- ⌘ First mainline color camera featuring internal lights.
- ⌘ First U.S. manufacturer to build a true pan-and-tilt camera with tracking lights.
- ⌘ First to manufacture cable reels that offer “electrical gear selection” and a true freewheeling cable drum.
- ⌘ First tractor design to provide freewheeling for rapid return.
- ⌘ First to design an electronic circuit to double tractor torque without increasing supply current.
- ⌘ First to introduce a steerable storm drain tractor or large pipeline tractor.
- ⌘ First U.S. company to design an explosion-proof camera and tractor approved for Class I Division I applications.
- ⌘ First to design a universal tap-cutting control system for single-conductor camera systems.
- ⌘ First to design single conductor laser and sonar profiling systems.
- ⌘ First manufacturer to produce a single conductor panomorph camera system.
